COURSES

Voyage education fair, the brainchild of Infinity Educare, leading experts in medical education consultancy, was devised to promote medical education abroad. With its commencement in 2017, Voyage education fair aims to offer an exclusive opportunity to education institutions to directly interact face-to face with thousands of aspiring students, parents, planning to pursue medical education in India and abroad.

Our aim is to fulfill the dreams of aspiring students who want to make it big in their career. With marks and high fees being the obstacles in India to pursue medical education, we guide students to opt for foreign universities listed with the Medical Council of India. Initially Voyage Fair catered to medical aspirants, however with its roaring success, gradually included engineering colleges, paramedical and management institutions in its umbrella. It is a free platform for students to gauge their prospects, apply directly to the institute of their choice and get first-hand information on courses to further their higher studies. The fair brings together prominent universities and educational institutions under one roof.

Having gained immense popularity and trust among the students and parents, it gives immense pleasure to announce our next edition, Voyage 2025.
